SKILLS SUMMARY

- **Languages:** C, C++, Python, HTML, CSS, Java Script, DBMS
- **Tools/Platforms:** VS CODE, Git, GitHub, Google Colab, Jupyter Notebook, ,Antigravity
- **Backend:** MySQL, PostgreSQL
- **Soft Skills:** Team Collaboration, Problem-Solving, Adaptability, Communication, Critical thinking, Leadership

PROJECTS

JARVIS | AI Voice Assistant | Python [\[Github\]](#)

Jan 2025 - Feb 2025

- **Developed a Python-based AI voice assistant** capable of processing voice commands and providing spoken responses, enabling hands-free interaction with the system.
- **Integrated speech recognition and text-to-speech functionality** to convert user voice input into commands and generate natural audio responses, creating an interactive conversational experience.
- **Implemented modular command-handling functionality** for tasks such as web searches, application control, information retrieval, and system operations, improving the assistant's usability and extensibility...
- **Tech:** Python, Speech Recognition, Text-to-Speech, AI/LLM Integration, Automation, Modular Architecture

Gym Tracker | HTML, CSS, JavaScript | [\[GITHUB\]](#)

Sep 2025 - Dec 2025

- **Developed a responsive gym tracking web application** using HTML, CSS, and JavaScript to help users organize workouts, monitor exercises, and track fitness progress through an intuitive interface.
- **Implemented interactive workout-tracking functionality** using JavaScript, enabling users to manage exercises, sets, repetitions, and workout data with dynamic updates and client-side interactions
- **Designed a responsive and user-friendly interface** with reusable UI components, interactive elements, and mobile-friendly layouts, ensuring a consistent experience across desktop and mobile devices.

Personal Developer Portfolio | HTML, CSS, JavaScript | [\[GITHUB\]](#)

Jun 2025 - Jul 2025

- **Developed and deployed a responsive personal portfolio website** using HTML, CSS, and JavaScript to showcase technical skills, projects, education, and professional profile.
- **Implemented interactive UI features** including dark/light mode, project filtering, animated sections, responsive navigation, project detail views, and dynamic user interactions using JavaScript.
- **Optimized the website for responsive design, accessibility, SEO, and performance**, preparing it for public deployment through vercel and search engine indexing

Smart Footstep Energy Harvesting & IoT-Based Monitoring System | ESP32, IoT | [\[Github\]](#)

- **Developed an IoT-based footstep energy harvesting system** using piezoelectric sensors to capture mechanical energy from footsteps and convert it into usable electrical energy through a bridge rectifier and energy storage circuit.
- **Integrated an ESP32 microcontroller** with the sensing and monitoring system to measure generated voltage and track footstep counts, displaying real-time parameters through an LED display.
- **Implemented IoT-based data monitoring** using ThingSpeak, enabling visualization and tracking of footstep data remotely

CERTIFICATES

- Infosys springboard Data Science | [certificate](#) Jun 2025
- Neo colab c_programming | [Certificate](#) Mar 2024
- Infosys springboard Big Data | [Certificate](#) Dec 2025

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering
CGPA: 7.1
Aug 2025
- **Sri Sri Ravishankar Vidya Mandir** Agartala, Tripura
Intermediate (CBSE)
Percentage: 78%
Apr 2022 – Mar 2023
- **Sri Sri Ravishankar Vidya Mandir** Agartala, Tripura
Secondary (CBSE)
Percentage: 90.02%
Aug 2019 – Mar 2020
